**BARN STALL AREA - COVERED AREAS,** but not climate controlled; north and south barn doors open to outside. The three 12x12' stall areas on the west side are enclosed rustic rooms (stalls) with a stall door opening and dirt floors; Great for a large boutique area. The north-to-south breezeway has four 6x10' spaces on solid asphalt floor. There are also two 10x10' spaces on concrete under balcony, somewhat protected from sun/rain. Electricity available, but stalls will need extra lighting.
